

EFAPROTECT® Series

EFA-SST® Secure
The safest high-speed door globally

EFA-SST® Secure:

The safest high-speed door globally

Security / Safety

- Resistance class RC 3 acc. to DIN/TS 18194:2020 - RC 3
- Resistance class RC 4 acc. to DIN/TS 18194:2020 - RC 4
- Infrared light curtain (EFA-TLG®)
- Locks automatically after each operating cycle

Speed / Operation

- Opening speed up to 1.0 m/s
- Closing speed up to 0.6 m/s
- Up to 250.000 operating cycles per year

General

- Patented technology
- Max. sizes W = 4,000 mm, H = 5,000 mm*
- Tested and certified by IFT institute

Spiral design

- Spiral construction ensures fast, while quiet operation
- Designed to minimise contact, reducing abrasion to the door blade

Door blade

- Extruded aluminium profiles, anodised E6/E1 or powder coating acc. to RAL

Control

- EFA-TRONIC® Professional in steel control box

Finish

- Galvanised steel
- Optionally powder coating acc. to RAL

Manual Release

- Manual opening utilizing spring tension

* Max. door dimensions RC 3

Maximum security meets maximum speed

Top protection for your assets

Burglary, robbery and vandalism – unfortunately in the modern era these crimes are no longer rare occurrences. Burglaries and robberies in particular are usually well organised and pre-planned, conducted by networks of criminals who have the necessary means to forcibly gain entry to property and steal valuables.

People wishing to safeguard against these risks often resort to electronic security detection and alarm systems – however, these can complicate logistical processes and result in the slowing down of internal procedures and significant restrictions to ongoing operations.

Security without limits

The EFA-SST® Secure combines speed with security in a single door solution. It provides maximum protection to the people around you, whilst incorporating the speed of an efficient EFAFLEX high-speed door. Double-sided automatic locks secure the door during every closing operation, transforming it into a near-insurmountable obstacle. The door fits seamlessly into the structure of the building and features impressive opening and closing speeds to ensure your processes remain quick and efficient, while your valuables stay protected.

Tested and certified

Thanks to certification by ift Rosenheim in accordance with DIN/TS 18194:2020, the door has attained resistance class RC 3 or RC 4 to offer maximum security against burglaries, robbery and vandalism.
